

## Financial Policy

As insurance coverage decreases and the patient's financial responsibility increases, we understand the need for clear communication of our financial policies. To better service the needs of our patients, we have added valuable tools to help you meet your increased medical expenses.

1. We will continue to look to insurance companies for their payment, and assist you in receiving proper reimbursement for our services. Unfortunately, most insurance no longer covers services fully and most current insurance plans chosen by our patients require significant out-of-pocket expenses to be paid by the patient.
2. Our staff has been trained to be able to communicate with you and answer your questions regarding payment and insurance reimbursement.
3. It is your responsibility to verify that all requirements of your insurance plan are met. We will assist you with pre-certification for procedures ordered by our office, but it is ultimately your responsibility to verify whether any care you receive is covered by your insurance plan. This office is not responsible for the expense of treatment, which is not paid by your insurance. With continuous changes in coverage, it is important for you to verify your benefits and be aware of all restrictions and expenses of your plan.
4. In accordance with the requirements of most insurance contracts, we will require co-payments to be paid at the time of service. Any person being seen for treatment or service will be required to pay the necessary co-payment at the time of service. Your insurance company will be notified when this contractual payment is not paid at the time of the appointment.
5. For patients owed balances, we will offer credit card, debit cards and payment plans to assist you in meeting your financial obligations to our office. You must advise us of any payment you receive from insurance or any third party for our services and forward this amount to our office immediately.
6. If we are a contracted provider on your insurance plan, we will file a claim with your carrier and you will be billed when they have responded to our claim. Upon receipt of their response, payment or denial, you will receive a statement for the amount your insurance company notifies us is your responsibility.
7. If you do not have current insurance card with you, you will be billed for the entire amount and asked for payment at the time of service. It is your responsibility to give us your card at each visit (if requested). We will not be able to file your insurance without a copy of your insurance card.
8. If you have an insurance plan that requires a referral, we will require that the referral be here before we can see you. We will do our best to assist you in obtaining the referral, but to expedite matters, it is best for you to contact your primary care physician and have them fax the referral over to us or bring the referral in with you.

I understand these policies and accept responsibility for payment of my account.
